Mines and Mining Stocks

OPERATOR TAKES ONTARIO MINE ENTIRE BLOCK

Nervy Idaho Man Snaps Up Less Than Seventy Feet of Lower Mammoth Stock and Stumps Local Talent.

On telegraphic orders from an Idaho patron, Dern & Thomas, the brokers, yesterday morning walked into the Lower Mammoth company's office and subscribed for every unsold share of the block of 40,000 shares of treasury stock placed on the market Monday. The amount unsold was 34,000 snares. No sooner had the word got out that all the stock had been sold than application after application was made in person and by telephone for some of the stock. The scramble to get in when it was too late was amusing and the management of the company, whether it did or not, should have taken a good deal of grim satisfaction in being able to turn the applicants down. The John was had the received n. The Idaho man had the nerve local operators lacked.

A little while ago, when the company increased its stock from 190,000 shares to increased its stock from 190,000 shares to 250,000 shares, and undertook to sell \$60,000 worth of convertible bonds against it, the proposition was given the cold shoulder and, with a debt of more than \$20,000 hanging over it, and with smelters declining to buy the ore that the mine was able to produce, there was nothing left to do but close down. Matters drifted along until the management a few days along until the management, a few days ago, was able to make a good contract for the output of the mine with the Tintic Smelting company to go into effect early in May. Following that action the directors took up the matter of raising money to discharge the indebtedness and

In the five days that had elapsed up to Friday night only 6,000 of the 40,000 shares had been taken and it looked as gone in a lump, everybody wanted it.
When the stock was reached on the exchange call it began selling at 54 cents and went to 61 cents before the brakes were applied, and it closed at 57 cents. were applied, and it closed at 57 cents. At the latter price the property has a selling value of only \$142,500, or a trifle more than half the market price of Crown Point; it is less than one-third what Black Jack is selling for; a trifle over one-eighth of what Beck Tunnel is bringing; less than a third of the price of Iron Blossom and nearly \$50,000 less than the Blossom and nearly \$80,000 less than the market value of Sioux Consolidated. That man in Idaho was apparently not slow in discovering that a big block of Lower Mammoth at 50 cents was worth having. It was worth over \$3,000 more having. It was worth over \$3,000 more than he paid for it within an hour, at any rate.

ONE MORE SHAFT FOR MAZUMA HILLS

(Special to The Herald.) (Special to The Herald.)
Seven Troughs District, Nev., April 17.—
G. H. Hayes, the big Goldfield operator, commenced work today on the double compartment shaft on his least on the Mazuma Hills ground. The commencement of mining operations follows a week of prospecting in which ten men have been engaged surface trenching. The disclosure of a strong vein that yields good pannings led to the location of the place for the shaft. It is believed that the vein opened up is the one that has covered the for the shaft. It is believed that the vein opened up is the one that has covered the Hayes lease with occasional float of the richest kind. The leading project of Mr. Hayes is regarded as one of the biggest in the camp. The shaft will be sunk 300 feet before any attempt will be made to explore the vein.

The two days' visit of twenty-three members of the Nevada Commercial league of Reno was completed yesterday,

members of the Nevada Commercial league of Reno was completed yesterday, and the visitors returned to Lovelock.
The following properties were visited by
the excursionists: The Buckhorn, Seven
Troughs, George & English lease, Mazuma Hills. Reagan & Hayes lease on Mazuma Hills, Kindergarten and the Wihuja lease on the Therien. Picture rock specimens were given to the visitors by every operator visited. Spreads were given at Vernon and Seven Troughs, and a banquet at Mazuma by the Seven Troughs District Publicity association. At the latter a dozen speeches were made on

Troughs District Publicity association. At the latter a dozen speeches were made on trade and mining relations.

A half dozen prominent mining men were with the excursion. Among these, W. B. Devereaux of New York, now a well-known operator in Colorado, expressed the sentiment when he said, "I am amazed at the development work york persons." pressed the sentiment when he said, "I am amazed at the development work you have done and the showings you have. I regard your district as proved and among the greatest. You have a great future."

IDAHO SMELTER DEAL IS FORMALLY RATIFIED

Helena, April 18.—At a meeting of the executive committee of the Montana Mining association in this city, the taking over of the Pan-Handle smelter at Pend O'Reille, Ida., was ratified and the papers signed.

papers signed.

A proposition was received and favorably considered for refining of association ores at Cook City, Mont., this plant, however, to remain with its present owners.

Mining Notes.

Bonanza company's properties, is down from camp to remain over Easter Sunday with Mrs. McGill.

The Yerington Copper and Zenoli com-panies listed their shares on the local mining exchange and were regularly called

O. H. Sonne, manager of the Yerington

Malachite company's properties, who has been in town for a day or two, will take a run out to Ophir, his old home, today.

Manager P. D. Delmas and a party of

experts and mining operators returned Friday night from a trip of inspection to

the company's Nevada mines. All expressed themselves as being highly pleased with what they saw.

In anticipation of what will be doing when the Uintah Treasure Hill company

gets down to business at Park City, the stock is being gobbled up at steadily ad-vancing prices. It will be some little time yet before work at the property begins.

The officials of the Ohio-Kentucky company would be pleased if the shareholders would send in their old stock certificates and have the new ones issued in their stead. Since the increase of the capital stock, the old certificates are no longer transferable, so the only thing for holders to do is to turn them in and get new

sampler yesterday.

Water Now in Workings Above 1.500 Level.

Water in the No. 3 shaft of the Ontario mine, at Park City, was at a point 31.2 feet below the 1,400-foot level at noon yesterday. On the first of the month, eighteen days ago, the water stood at 49.9 feet below the 1,300 level, so it has been lowered eighty-three feet in the eighteen days. At the present clip the mine will have been drained to the 1,500 or drain tunnel level by the end of the present month.

While it is not so stated by the management, the probabilities are that when the water has been lowered within forty feet or so of the drain tunnel level, a large opening will be made through to the main drift so that the final few feet will not be so slow in running off.

When these mines are once more reclaimed, Park City is going to forge right to the front. Watch it.

MINING STOCK EXCHANGE.

Bears in the Local Market Seem to

Have Been Completely Routed. The week on the local mining stock exchange closed with the bulls in full control; it opened with the bears on top. The boom that has been promised as soon as conditions should be ripe for it appears to have slipped its leash and started unbidden on the race. The short element confesses to being worried, and, while there has been little "covering," as yet, if the market continues to bulge during the coming week as it has done get work started and it was finally decided to sell the 60,000 shares of new stock at 50 cents a share, a price that was then a few cents above the market. As have been riding the pessimistic pony will an evidence that they were willing to do have to climb down. Beck Tunnel, Colobate in the distance of the distance o an evidence that they were willing to do their part, the directors subscribed for 20,000 shares and on Monday sent a letter to the stockholders advising them of the action taken and telling them they were at liberty to get in and subscribe for the remaining 40,000 shares, stating, at the subscription up to the 22d and that it would be a case of "first come, first larger that the block would be a case of "first come, first during the next few months, and buyers" would be a case of "first come, first during the next few months and buyers served." stocks before the real big move gets un-

though the stockholders were not going to give the proposition much better consideration than they did the convertible bond offer. Yesterday morning, after they found that the remaining stock had gone in a lump, everybody wanted it the totals being 78,300 shares and \$39,250.25. Following is the list of final quotations and record of sales made during the single regular and open board calls:

ture, is in the city for a few days on business connected with his various un-It leaked out yesterday that one of the dertakings.

Circle camp, Nevada, occurred on Eunday ing Pan group, and the original pannings "Of course I don't know just what the properties during the coming month. ing the afternoon, "but I helped to do some of the panning and I am not exaggerating at all when I tell you that I secured a string of the yellow metal two inches or over long in the pan that I tried out. It beat anything I had previously seen in the camp. This rich quartz was uncovered as a result of following up the float found below and it demonstrated to a nicety that the real source of the rich float had been found. When I left it was with a promise that I would not mention the strike to any one for a few days, and I have kept my word, though I have fell like telling about it every minute since I saw the rock. The strike was made on the Frying Pan No. 2 claim and, while I have heard nothing, more about it since leaving camp, it is my belief that the discovery is going to prove one of the sensations of the district. The first gold.

GOLD AND SILVER STRIKE NEAR SODAVILLE, NEV. DOINGS OF UNLISTED

leaving camp, it is my belief that the discovery is going to prove one of the sensations of the district. The first gold ever found in the camp was on this group of claims and the latest discovery is, in my judgment the best of all. I am not personally interested in the proposition, but anything that helps to show what is being found in the Gold Circle district is of interest to all of us."

Mr. Jardine was in receipt of a letter yesterday from the superintendent of the yesterday from the superintendent of the Columbia to the effect that a new lead of gold-bearing quartz had been opened in that company's ground, so he is now getting anxious to return to camp and take a hand in directing development again. The Columbia is controlled by an Ogden crowd, headed by the Browning brothers, the sporting goods men.

campaign of development in the near fu- LOCAL COMPANY OPENING A NEW MINE IN NEVADA

W. R. Clark, vice president, and Louis Simon, manager, of the White Cloud Mining & Milling company, who are just in from Nevada, report splendid progress in the development of the company's ground the development of the company's ground, just over the Utah line in White Pine county, Nevada. Last fall a fifty-foot ledge was prospected and opened to shal-low depth by a shaft. Splendid lead-silver-gold ore was encountered and a tun-nel was started this spring to open it up at greater depth and to permit of eco-nomical mining and development. This tunnel has now attained a depth of 160 eet and the next week or two will carry the face into the ore shoot open Selected ore from this great ledge carris 70 to 86 per cent lead, 9 to 38 ounces silver and from \$4 to \$12 in gold. In addition to the high-grade ore, the officers mentioned report that the ledge carries a world of fine milling ore and, as there is an abundance of wood and water right at hand, milling operations can be cheaply carried on. The properties are located forty miles or so from the nearest point on the Western Pacific that will be available as a shipping point when the branch is built south and, as there is a great deal of mining going on in that secgreat deal of mining going on in that sec-tion of the country, no doubt is enter-tained that transportation facilities will be made even better before a great while.

Mr. Simon is also manager of the Franco-American syndicate of properties in Nevada, as mentioned elsewhere.

STOCKS ON EXCHANGE

There was only a few of the unlisted stocks mentioned yesterday, but they were doing business, just the same. East were doing business, just the same. East Crown Point sold at 1%c, East Tintic Consolidated at 3%c to 4c. with Thompson lively at 15%c to 19c and Uintah Treasure Hill reeling off thousands and thousands of shares at 22c to 23½c per share.

Ohio Copper was wanted at \$1.90, but none of the stock was offered, while Silver King Coalition was at \$3.75 bid, with no offerings. with no offerings.

Let us figure with you.

While there is nothing out of the usual to report from the Utah Copper company's properties at the present time, Manager D. C. Jackling states that the campaign at the mines is broader than ever. At the present time 5,000 tons of ore a day is being moved to the mills, while the total amount of material, including overburden that is being stripped from the lode is 12,000 tons a day. THE OLD WAY.
